

# QPASTT Statement

QPASTT's vision is for people from refugee backgrounds to live lives liberated from the harms of torture, trauma and human rights injustice. Our purpose is to nurture meaningful futures by assisting people from refugee backgrounds to heal, belong and thrive in our community.

In solidarity with the global Black Lives Matter movement, we stand together with Aboriginal and Torres Strait Islander peoples, and other people of colour, in the struggle against racism, oppression, injustice, inequality and human rights violations.

Healing and reconciliation require us as a nation to fully acknowledge that the trauma experienced by our first nation peoples is an ongoing legacy of colonisation, to embrace the richness and strengths of their cultural knowledge and traditions, and to value the diversity and contribution of people from all corners of the world who now call Australia home.
